- Summer Lifeguard and Swim Coach at Community Pool.

Winning this scholarship means a lot to me because it is helping me pave the way to my future. It has given me the funds to attend my next four years at Tulane where I plan to major in neuroscience and lay the foundation for medical school. Being a Navy brat, I was moved around everywhere, all the time and was exposed to so many different people and cultures. I would not trade that for the world, and Wings Over America is allowing me to further those experiences in New Orleans. I am honored to carry the Wings Over America name with me as I go forth to hopefully leave my mark on the world. Wings Over America has given me chances I could never have taken without this scholarship and I am grateful for that.
