Statement: Receiving a 2012 scholarship award helps me relieve me of whatever financial worries I have for college. I am tremendously grateful that my efforts and struggles throughout high school and my passion for my future career as a translator/interpreter have been recognized through this scholarship, enough to earn me more than just a handful of cash to aid me through college as I continue to pursue my education. In receiving this scholarship, I know now that if I continue to work as hard as I am and never let go of my passion and motivation, I will be rewarded.
