Receiving a 2017 scholarship allows me to get more out of my time in college. Because the scholarship helps me financially, I will be able to study abroad in Germany later this year! The scholarship also allows me to invest more time in my studies and my work, rather than focusing on financial concerns. Overall, I am grateful to receive a 2017 scholarship because it guarantees me a greater amount of personal and financial freedom- two privileges I will not waste or take for granted.
