Statement: Receiving this Wings Over America Scholarship is an incredible honor and I am very grateful. This scholarship will allow me to continue my studies in biomedical engineering at the University of South Carolina and my research of the spread of cancer cells. The relief of some of the financial burdens of college gives me the opportunity to dedicate all of my energy and more of my time to my studies, research, and service to the Carolina community and the Columbia, SC community as well. I am proud and honored to receive this scholarship; this pride will push me to work to my fullest potential this upcoming school year. Thank you for this honor, I cannot express my gratitude enough!
