This scholarship means so much more than just money to me. To me, this scholarship represents a bright future filled with opportunities that I could not have otherwise acquired. This scholarship means that I shall get to continue my participation in my school in and out of the classroom. I look forward to the infinite number of possible educational experiences that I shall have in my next three years as well as more opportunities to serve as a leader on my campus and in the D.C. community. With this scholarship I shall continue my pursuit of a degree in international politics at Georgetown University. I hope to use my education to the fullest as I enter into the real world and attempt to serve my country in every way I can. I have been so incredibly blessed in my life and I hope to better myself so that I can give back and further serve my community and nation in the future in the best ways I can. I will never be able to thank enough the organization or people who made this scholarship possible, but I can only hope that, through my actions and my impact on society, I can live up to the honor that have been granted upon me with this award.
