I would like to extend my sincere gratitude to the selection committee for awarding me this financial aid. With the difficulties of a military lifestyle, it is comforting to know that I will continue to receive support and aid away from my largest support system, my family, as I continue my education at a university.

I appreciate your confidence in my character and in my abilities as a student. Your willingness to contribute to my education's future will assist me in following my dreams to study marine biology. The scholarship will help ease my transition into my new life away from home. I have gained confidence in moving away from home because of your support. I am grateful for the opportunities this award will grant me. Receiving this scholarship will help reduce my financial burdens and assist me as I pursue my educational aspirations.
