- Volunteer: Key Club Fundraising Organizer, Cardinal Ritter Senior Services
- Year Round Employment: Caretaker at Windsong Kennels, Childcare Provider

I am truly honored to receive this scholarship through Wings Over America. Not only will it aid me in achieving my dream of becoming a computer engineer, but it will aid me in relieving the financial stress that comes with pursuing that dream. While attending University of Tennessee, I plan on majoring in Computer Engineering and possibly with a minor in Spanish. In addition to my academics, I plan to be involved in my school/community through clubs and volunteering, while also balancing a job and social life. Without this scholarship, I would not be able to become involved and continue to expand my education. It is for these reasons that I am extremely grateful for this scholarship.
