Winning a scholarship has meant to me that not only has all of my hard work in school paid off but so has my father's service to our country. His long standing service with the navy is the thing that allowed me to apply for this scholarship and my experiences with him gave me the information for my essays. It also shows that everything I worked so hard to be involved in high school and gave so much of myself to be giving back to me in a very important way as well. This scholarship is very important and meaningful validation for all my and my father's hard work that I plan to not take for granted.
