The Maritime Patrol Association scholarship, granted through the Wings Over America Scholarship Foundation, will not only provided me with financial backing to pursue my endeavors, but also the inspiration to continue the hard work I have put into earning my degree. Double-majoring in Political Science and International Studies while double minoring in Business Administration and Spanish, this scholarship will assist in my endeavors throughout my college experience such that I may continue to stay active in my classes, Student Government, and Presidential Envoys. I also plan on interning for the U.S. Department of State, as it is my goal to have a career in Foreign Service. Being able to stay active on campus has been invaluable to me. I have gained so much insight on the world and I have been able to better set my long-term goals. Just by being around fellow students with the same amount of passion, college has blessed me with friends that make a positive impact on my outlook and push me to better myself. My family has been supportive of me every step of the way. My mom and dad make sure that no opportunity is wasted and my sister reminds me of the bigger picture.
