Statement: Receiving a 2012 Scholarship is an honor --- to be classified with the high caliber of students, hard workers and contributors associated with this foundation is more than flattering. The generosity of Wings Over America graces me time and freedom. The granting of money towards my education allows me to spend less of my time paying for school and more of it studying, experiencing the world, taking advantage of opportunities. Thus, the scholarship has given me the freedom to focus more on experience---to take an unpaid internship over an introductory job, to study instead of going to work, to choose my own opportunities rather than being limited. I am exceptionally proud of my parents' service in the Navy they have taught me the value of loyalty, hard work, and perseverance. This scholarship has reinforced those lessons; I consider myself exceptionally blessed to have received a 2012 scholarship award.
