The VAW/VRC scholarship will help me continue my learning and development as a student at Marymount University. This generous financial gift further supports my dreams of becoming a nurse. I feel honored by being a scholarship recipient of Wings Over America Foundation, an organization that supports military families' education. I admire the gracious encouragement from the military community that has acknowledged my educational and personal dreams of caring for and improving the lives of others. As a nursing major I accept nothing less than constant dedication and attention to my studies, the hours spent in the library and labs are countless. My extracurricular activities allow me to have a deeper involvement in my studies and become more passionate about my dreams. My determination to grow as a student and a leader will allow me to aid in the positive outcomes of patients.
