This scholarship means an opportunity for education and finally taking the first step needed to start on my career. Starting a career is very expensive and comes with a lot of responsibilities. Receiving this 2017 scholarship showed me that you should not give up on our dreams because they are many resources that can help us achieve our goals throughout our lives. This scholarship will be used for all my school classes. This is very important to me because before I did not have the money to pay for all of my college expenses. Now I can focus and learn about different opportunities I have in my life.
