I love learning. My journey for knowledge began when I was little and has continued throughout my life. I have always been searching for answers and asking questions. Receiving a 2016 scholarship award means that I get to continue my search in college. I will be able to focus on learning rather than paying for tuition. The award also allows me to go to the type of college that will help me to foster my learning and creativity. I wanted a college that had a great reputation for academics and a welcoming community dedicated to service and social justice. The college that I fell in love with and the one that will help me on my journey the most, was not the least expensive, so this award helps to cover the cost of tuition in order for me to be able to learn and thrive there. Thank you for the scholarship and the opportunity that it provides.
