Statement: This scholarship means the start of a bright future. And to all the people who said I couldn't do it let alone get a scholarship, I did it. It's an honor and privilege especially knowing that it is because of my dad's heroic sacrifices that I am eligible for this scholarship. I want to use this as a way to thank my parents for supporting me, by excelling in college with this being a new start and the beginning of something big and successful.
