I am honored to be a recipient of a Wings Over America Scholarship. Being awarded this scholarship is an opportunity for me to not only lower my tuition costs, but to represent all military kids. In filling out the actual application, listing the programs, organizations and places that have been a part of my life really showed the vast variety of experiences my military life has presented to me. The Wings Over America Scholarships are a validation and thank you to the children of aviators as well as to their active duty parents for their service to the United States of America.
