Statement: After months and months of waiting I was thrilled to receive your scholarship. More than anything it proved that all my hard work has paid off. Sometimes it's just that you are on the right track. To me it was a prize for all the essays I've written, all of the hours I've volunteered, and all of the grades I've gotten. The letter lets me know that someone out there supports me and believes that I can go places. That means the world to me. I feel so blessed to live in a country where education is valued so highly. It isn't everywhere in the world that organizations donated money to children for college. I am so grateful to Wings Over America – thank you for the opportunity.
