Being awarded this scholarship means the world to me. I am thankful enough to be able to attend the private university of my dreams, although the cost of schooling continues to rise. My parents believe in me and never said no to letting me follow my dreams. With the help of this scholarship I am able to keep those dreams a reality. As I begin my sophomore year of college, I look forward to all the things I will accomplish and continually give to my all to make sure I achieve every goal I set.
