- Summer Work at Subway

Thank you so much for rewarding me with a Wings Over America scholarship for a second year in a row! I appreciate your support as I continue with my education. Receiving this scholarship will help me with my finances as I enter a heavier course load my sophomore year. I am applying to the Elementary Education program and have begun numerous classes in the hope of earning two endorsements. By the time I graduate I should earn an endorsement in Science and in English Language Learners. I am currently taking summer classes so that I can fit even my additional credits into the traditional four years of college. Your support means so much to both me and my family.
