I am so honored to be awarded a Wings Over America scholarship for my third year at Christopher Newport University. Wings Over America has helped make my two years at CNU possible which have been the two of the best years of my life. CNU has helped me grow in every aspect of life, not just academically. This scholarship helps to ease some of the financial burden and allows me to embark on my third year and all that it has in store. I am excited to continue many activities I have been involved in as well as to embark on new opportunities and adventures. I am blessed and very thankful for the Wings Over America Scholarship Foundation. Thank you.
