Receiving a 2015 scholarship means everything to me. It means that I can focus more on my studies and attaining good grades instead of worrying about the money it takes to pay for my classes. Frankly, college is expensive and with the career that I am working towards, I will be in college for at least four more years including graduate school. Thus, winning this scholarship gives me the peace of mind that I will not currently have to worry as much about how to pay for my entire education. That peace of mind especially with how hard college really is.....is priceless. Therefore to me the scholarship is priceless as well, and I am truly grateful to be given this opportunity.
