I am so grateful to have received this scholarship. By receiving this award I am reminded of all the generous people in our country who are helping the future leaders of our society successfully achieve their life goals. I would like to say thank you to every generous donor who makes the WOASF awards possible. The students of my generation are not far from being the next great doctor, researcher, politician or even educator responsible for preparing the generation after us to take on the real world. With this award, it shows that other people care about our success and that, to me, is the greatest motivation of all to succeed.
